

**Saeco Exprelia
Super-automatic
espresso machine**

- 12 varieties
- Integrated milk carafe
- Steel/Silver
- 15-step adjustable grinder

HD8858/01

Exquisite coffee, fine tuned to your taste

Proven hygiene without hassle with steam cleaning

With Exprelia, aspiring coffee experts can experience the thrill of preparing a cup as professionals would, with the ability to refine up to 7 settings for each drink and the guarantee of a perfect hygiene, certified by VDE

Advanced technology designed for coffee perfection

- Delicious hot Cappuccino and Latte Macchiato at one touch
- Extract maximum flavor with the 100% ceramic grinders

A variety of coffees customized to your taste

- A multitude of specialty coffees at the touch of a button
- The strength selection remembers just how strong you like it
- Fine-tune the coffee's richness with 15 grinder settings
- Enjoy a crema layer as you like it with a twist of a knob
- Refine the coffee taste by adjusting the pre-brewing time

High comfort is part of the experience

- The fully removable brewing group can be cleaned in no time
- Proven hygiene with the patented steam cleaning carafe
- 5000 coffee cups* without descaling with AquaClean filter
- Cutting-edge design with stainless steel finishing

Highlights

One-touch Cappuccino and Latte

For an irresistible, creamy foam consistency, the integrated milk carafe froths the milk twice, removing bubbles and impurities. At one press of a button, a splash-free flow of velvety foam pours straight into your cup at a comfortable temperature. Thanks to the powerful double boiler, it can steam for milk frothing and brew espresso immediately after for perfectly hot drinks without the wait.

Memo Function

Once you've chosen your ideal strength from the 5 different settings, you can easily save it with the Memo Function, as well your desired length and temperature. Then every cup in the future will be customised exactly to your taste. You'll never have to remind it again, unlike the local barista.

Hygienic steam cleaning carafe

Maintaining high hygiene has never been this easy. Thanks to the Steam Cleaning Cycle, the frothing mechanism will be automatically cleaned, removing milk residues without the

need to empty the carafe. The hygienic performance is certified by the independent German test institute, VDE.

Removable brewing group

Efficiency and ease of use were key inspirations when Saeco invented the first brewing group 30 years ago. And to this day, it still proves to be an inspired, resolute piece of technology. As always, it's so simple to clean – just remove it and wash it under the tap for a few seconds, then re-insert it just as easily.

AquaClean filter

Saeco's patented AquaClean filter ensures you make the most out of your Saeco machine. By changing the filter every 3 months, you will get the hygienic benefit of clear, impurity-free water, without the hassle of descaling your machine for up to 5000 cups, based on 0,11 cups and 8 filters.

Designed and made in Italy

An elegant vision of pure design, this machine looks as refined as the coffee it makes. The stainless steel front, inspired by Italian design and craftsmanship will stand the test of time in a classic or modern kitchen. Add to this its intuitive design features, and it becomes a richly fulfilling coffee experience.

Specialty coffees at one touch

From, espresso to frothed milk, there is an assortment of options waiting to satisfy your coffee cravings. Whether it's first thing in the

morning or an after dinner treat, there's a taste for any time of the day, right at your fingertips.

Fine-tune the coffee's flavor

You can even influence the taste of your coffee by adjusting the pre-brewing time. Prebrewing ensures the coffee grounds are moistened before brewing so that aromas unfold evenly. Unlike conventional espresso machines with a pre-brewing function, Saeco allows you to adjust the pre-brewing time to get the taste just to your liking.

Refine crema and body quality

Enjoy a crema layer just the way you like it and discover a wide spectrum of tastes, all with the twist of a knob! You control the coffee flow and brew pressure to vary the body and thickness of the crema with one easy move. Turn it left for a luxurious, thick crema layer for an intense and full bodied espresso, or turn it right for a smooth, lighter tasting classic coffee with less crema.

Refine coffee's richness

When it comes to the fineness of the grind, this machine never fails to satisfy. Different coffee blends require different levels of granularity for the full flavor to unfold. So the grind granularity of this machine has eight adjustable settings – from the finest grind for a full-bodied espresso, to the coarsest for a lighter coffee.

Specifications

Design and finishing

- Material of main body: Stainless Steel / ABS plastic
- Material boiler: Stainless steel (Inox)

General specifications

- Ease of cleaning & maintenance: Removable brewing group, Dishwasher safe parts
- Ease of use & comfort: Automatic stand-by, Removable watertank
- Special functions: Powder option

Accessories

- Included: Cleaning brush, Measuring scoop

Country of origin

- Made in: Italy

Technical specifications

- Capacity milk carafe: 0,5 l

- Capacity waste container: up to 11 servings
- Capacity water tank: 1,5 l
- Frequency: 50 Hz
- Max. cup height: 150 cm
- Power: 1400 W
- Pump pressure: 15 bar
- Voltage: 230 V
- Water boilers: 2
- Capacity bean container: 300 gr
- Cord length: 0,8 m

Weight and dimensions

- Dimensions of product (LxDxH): 245 x 360 x 420 mm
- Weight of product: 13 kg

Service

- 2-year worldwide guarantee
